RECOMMENDATIONS FOR ALL POPULATIONS

- Ongoing, interactive, in-person, anti-racism training requirement for all UC San Diego staff and faculty.
- Provide regular training/workshops for non-Black faculty on anti-Blackness, implicit bias, and pro-Blackness within the context of learning about quality mentorship for Black students. Equipping non-Black faculty with effective student mentoring skills can lighten the service load for Black faculty.
- Create a welcome or onboarding video/training that centers Principles of Community and EDI values for staff, student, and faculty orientation.
- Design an accountability process timeline and benchmarks for review and progress on the recommendations to specifically improve Black presence and experience at UC San Diego
